

Tech Pack

A tech pack is the blueprint your manufacturer builds from. Fill in what you can — even a partial pack gets you a faster, more accurate sample. Leave the rest blank and we'll help you complete it during sampling.

1. Style summary

Brand		Style name	
Style number		Season / drop	
Designer		Date	
Version		Sample size	
Garment type		Fit	
One-line description			

2. Technical sketch

Paste or draw a front and back flat sketch. Label key features (seams, pockets, prints, trims).

Front view	Back view

3. Bill of materials (fabric & trims)

Material	Placement	Composition	Weight/GSM	Colour	Supplier
Main fabric					
Rib / cuff					

Thread					
Drawcord					
Zip / buttons					

Tip: if sustainability matters, state the certification you need (e.g. GOTS-certified organic) and ask to see the certificate.

4. Colourways

Colourway name	Pantone / TCX	Body	Rib / trim	Print

5. Points of measure (size chart, cm)

List your key measurements. Fill the sample-size column first; add a tolerance (the +/- the factory may vary by).

Point of measure	Tol.	XS	S	M	L	XL	2XL
Chest width (1cm below armhole)							
Body length (HPS to hem)							
Shoulder width							
Sleeve length							
Sleeve opening / cuff							
Neck width							
Bottom hem width							

6. Construction & stitching

Area	Stitch / seam type	SPI	Notes

Neckline / collar			
Shoulder seam			
Side seam			
Sleeve / cuff			
Hem			

7. Labels & branding

Item	Type / material	Placement	Artwork ref
Main / neck label			
Care + content label			
Size label			
Hang tag			
Print / embroidery			

8. Packaging

Element	Specification
Fold method	
Polybag / tissue	
Barcode / sticker	
Carton / master pack	

9. Order & approvals

Qty per size/colour		Total units	
Target launch date		Approved by
